ABSTRACT

This report, the eighth in a series, presents national adult basic education (ABE) and secondary level education statistics compiled from the annual reports submitted by the States and other areas receiving federal funds for ABE programs. The statistics cover enrollments, student characteristics, completions, separations, teachers, classroom facilities, and inservice training of teachers and other staff members. Following a brief introduction describing federal ABE program efforts, the content is presented in two sections. Section 1 consists of one table which summarizes the statistics for fiscal years 1971 to 1975. The second section reports the statistics for fiscal year 1975 in seven graphic charts and twenty-eight detail tables. The annual report for adult basic and secondary education programs form and instructions are appended. (EM)

NATIONAL CENTER FOR EDUCATION STATISTICS

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."–Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
WASHINGTON: 1978

FOREWORD

Beginning with data from the 1966-67 fiscal year, the National Center for Education Statistics (NCES) has worked with the Office of Education's Division of Adult Education of the Bureau of Adult and Occupational Education to prepare annual summary reports on adult education programs sponsored by Public Law 91-230, as amended. In addition to summarizing information from the most current year, in this case 1974-75, these reports present comparative information for the past five years, here for 1970-71 through 1974-75. The information used comes directly from the annual reports on adult education activities submitted to the Division by each State, the District of Columbia, and participating outlying areas. The data were edited in the States, in the Division, and in NCES.

To make comparison with previous reports easier, table formats usually follow the patterns of the earlier years. Tables in the report summarize data on enrollments, student characteristics, completions, separations, teachers, classroom facilities, and inservice training of teachers and other staff members.

This publication was developed under the direction of Sylvester H. Cain, with the assistance of Barbara A. Whalen, Nancy L. Buckley, and Elaine J. Price. Charles Lauthers provided technical advice on development of the tables.

Close cooperation in the project was extended by the Division of Adult Education through Paul V. Delker, Director, and Morris L. Brown, Chief of its Program Development Branch, with day-by-day liaison by Sharon A. Jones.

17.–Number of State administrative and supervisory personnel in adult basic and secondary education programs, by hours of training and by State or other area: Aggregate United States, fiscal year 1975. 34

18.–Number of paid local administrative and supervisory personnel in adult basic and secondary education programs, by hours of training and by State or other area: Aggregate United States, fiscal year 1975. . . . 35

19.–Number of paid local teachers in adult basic and secondary education programs, by hours of training and by State or other area: Aggregate United States, fiscal year 1975. 36

20.–Number of paid local counselors in adult basic and secondary education programs, by hours of training and by State or other area: Aggregate United States, fiscal year 1975. 37

21.–Number of paid local paraprofessionals in adult basic education and secondary education programs, by hours of training and by State or other area: Aggregate United States, fiscal year 1975 38

22.–Number of participants in adult basic and secondary education programs, by instructional level and by State or other area: Aggregate United States, fiscal year 1975 39

23.–Number of enrollments, completions, and separations in adult basic and secondary education programs, by level of instruction and by State or other area: Aggregate United States, fiscal year 1975. 40

24.–Number of participants in adult basic and secondary education programs, by type of facility housing classes and by State or other area: Aggregate United States, fiscal year 1975. 43

25.–Number of daytime classes in adult basic and secondary education programs, by type of facility housing classes and by State or other area: Aggregate United States, fiscal year 1975. 44

26.–Number of evening classes in adult basic and secondary education programs, by type of facility housing classes and by State or other area: Aggregate United States, fiscal year 1975. 45

27.–Number of enrollments in programs for institutionalized persons and persons of limited English-speaking ability, by State or other area: Aggregate United States, fiscal year 1975. 46

28.–Number of separations in programs for institutionalized persons and persons of limited English-speaking ability, by State or other area: Aggregate United States, fiscal year 1975. 47

29.–Number of Section 309 projects funded by the State agency or other area: Aggregate United States, fiscal year 1975. 48

INTRODUCTION

Characteristics of the Program

The adult basic and secondary education program administered by the U.S. Office of Education was established under the Adult Education Act of 1966. This program offers to persons 16 years[1] of age and older the opportunity to overcome English-language difficulties and attain reading, writing, and computational skills through the 12th-grade level of competence. The program also offers students the opportunity to earn a high school diploma.

Each of the 50 States, the District of Columbia, and 5 outlying areas[2] has established and operates adult basic and secondary education programs, funded in part by the Office of Education.

To participate in the funding program, each State or other area (except the Trust Territory of the Pacific Islands) must provide at least 10 percent of program costs and retain total responsibility for planning, supervisory services, teacher training, curriculum development, evaluation, and all essential services for enrollees through the 12th grade. In fiscal year 1975, each State, the District of Columbia, and five outlying areas conducted adult basic and secondary level education programs. As a convention, the United States together with the outlying areas are termed "aggregate United States."

The Office of Education also awards grants to schools, colleges, universities, and public and private nonprofit organizations for special projects and teacher-training projects. The act also authorizes direct contracts with institutions and organizations to develop new teacher-training techniques.

[1] On June 30, 1969, the minimum age limitation was reduced from 18 to 16 years by the Vocational Education Amendments of 1968. The collection instrument included the new minimum for the first time for fiscal year 1971.

[2] American Samoa, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands.

Data in This Report

This report on these programs is divided into two sections: (1) a short one on 5 years of summary statistics, and (2) more detailed fiscal year 1975 statistics. The 5-year summary provides some historical perspective. Most of the data were compiled from the annual program reports (see appendix) submitted by each State or other area. Data are presented for the aggregate United States and each State or other area. While attempts were made to compare fiscal year 1975 data with those of previous years, revisions in the report form limited some of the comparisons.

The 1972 change lowering the minimum age of students served from 18 to 16 years complicated comparisons between data for the 1971-75 period and those for earlier 5-year periods. Also changed were race or ethnic groupings and the definitions of grade equivalents for the three instructional levels. Researchers analyzing trends should note these changes.

National Advisory Council on Adult Education

The National Advisory Council on Adult Education operates under provisions of Public Law 91-230, as amended, title III of the Adult Education Act, section 311. The Council consists of 15 members, including a chairman and vice chairman, and operates through working committees. The Council advises the Commissioner of Education on general regulations and policy in the administration of the adult education title. The Council also advises OE on policies and procedures governing the approval of State plans, ensures the coordination of adult-education programs under the title, and examines other programs offering adult-education activities and services. The legislative charge to the Council includes a review of the administration and effectiveness of adult-education programs sponsored under the title, recommendations, and an annual report to the President. In fiscal year 1974, the Council developed a publication entitled *A Target Population in Adult Education*, which provides evidence of the education, work, and economic needs of a large proportion of the Nation's adult population.

FIVE YEARS OF ADULT BASIC AND SECONDARY EDUCATION, FISCAL YEARS 1971-75

This section presents a summary of statistics for five consecutive Federal fiscal years, ending with 1975. Data for this section, and for the entire publication, come from annual program reports submitted by the States or other areas.

In these 5 years, 4.5 million persons received training under the Adult Education Act, as shown in table 1. Enrollments in the more recent years were higher than in fiscal years 1971 and 1972. Over 27 percent of the participants during the 5-year period 1971-74 were recorded for 1975.

Women have consistently provided most of those served by adult basic education programs, with only slight deviations from year to year.

As might be anticipated the percentage of persons under 25 participating in adult basic education has increased since 1972, when amendments to the act made persons between 16 and 18 eligible for enrollment in federally aided programs. The largest cumulative decline in proportion of participants is for those aged 35 to 54. This decline also reflects the fact that many in this age bracket may have already been served by the program.

No attempt was made to compare financial data for fiscal years 1974 and 1975 with those from earlier years because the form for reporting fiscal data was changed.

ADULT BASIC AND SECONDARY EDUCATION, FISCAL YEAR 1975

Statistics in this section were obtained from the Adult Basic and Secondary Education program reports for fiscal year 1975. Each State or other area files this form annually with OE through its appropriate regional office.

Participation

As shown in table 1, adult education programs funded under Public Law 91-230 served over 1.2 million persons in fiscal year 1975, an increase of 26.4 percent over the 965,000 participating in fiscal year 1974. Three States accounted for 28 percent of the enrollment: California, with 155,190 participants; South Carolina, 85,422; and Texas, 101,254. This total of almost 342,000 probably included a high proportion of the 270,000 participants of Hispanic origin shown in chart 1 and table 2. Both the Carolinas (North Carolina, with 83,434, and South Carolina, with 85,422 participants) reported considerably higher enrollments than many larger States, such as New York, with 58,016, and Illinois, with 54,444 participants.

Women's Participation

As in the past years, women constituted substantially more than half (55 percent) of the adult basic and secondary education participants. Table 3 shows their participation by State, which ranges from highs of 73 percent in Hawaii and 67 percent in Mississippi to a low of 43 in North Carolina.

Race/Ethnic Group

Minority group members have been a particular target of the adult basic education program. Comparable statistics on their involvement in 1975 (from table 2) and 1974 follow[1]

[1] In some cases, original data provided by the States were slightly inconsistent from one table or another. Where telephone calls to the States were unable to produce complete consistency NCES imputed the data using information from the prior year for the State in question or data from other tables it provided.

Race/ethnic group	1974	1975	Percent change
American Indian	14,452	14,159	−2.0
Negro/Black	281,876	344,808	22.3
Asian American	49,730	67,750	36.2
Spanish surnamed	236,580	270,256	14.2
Other	372,580	524,237	40.7

Age Group

Chart 2 and table 4 present information on the ages of persons enrolled in adult basic and secondary education programs in fiscal year 1975. The two largest age groups were 16-24, with 492,615 (40 percent of all participants), and 25-34, with 338,140 (28 percent). Age data for 1974 and 1975 were:

Age group	1974	1975
16-24	362,580	492,615
25-34	260,753	338,140
35-44	171,390	195,225
45-54	94,058	110,716
55-64	44,152	50,407
65 plus	24,041	34,107

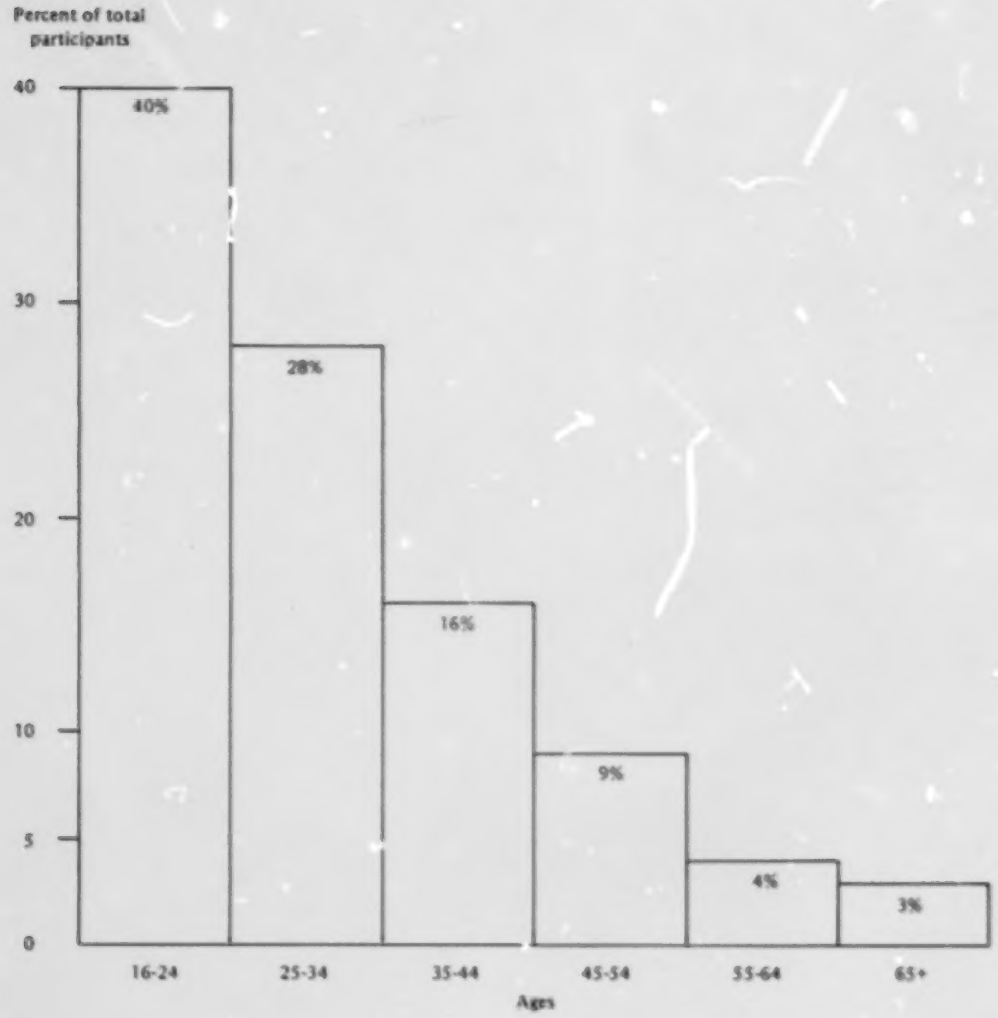
Race/Ethnic and Age Group

Two charts present details on enrollment in adult basic and secondary education by age and race/ethnicity. In chart 3, the relative participation by age is shown for each of the five basic race/ethnic groups. In every group but Asian American, the largest numbers of participants were from age group 16-24. The second largest for all groups, except Asian American (where it is largest) came from those aged 25-34. Thus, rates for race/ethnic groups tended to correlate with national ratios. Chart 4 shows for each age group the proportion of total enrollment in adult basic education from each race/ethnic group.

A series of tables presents information on enrollment totals of various race/ethnic groups: table 5 for American Indians, table 6 for Negro/Black participants, table 7 for Asisan Americans, table 8 for Spanish-surnamed participants, and table 9 for all other participants.

Chart 1.--Number of participants in adult basic and secondary education programs, by race/ethnicity of students: Aggregate United States, fiscal year 1975

Chart 2.--Percent of participants in adult basic and secondary education programs, by age: Aggregate United States, fiscal year 1975



Completions/Separations

The reasons for which 488,007 persons (40 percent of those enrolled) left adult basic and secondary education programs before completing them are shown in table 10. Excluding the undefined "other" category, the two largest categories were "met personal objective" (64,297) and "take a job" (42,023). Both included persons likely to have benefited from programs even though they failed to complete them. Chart 5 shows the relationship between enrollment and completions/separations by level of instruction.

Education Progress

Table 11 shows participants' educational progress after entering adult basic and secondary education programs. It shows, for example, that 64,979 persons entered high school; 88,689 passed the General Educational Development (GED) test for high school graduation equivalency; and 89,109 enrolled in "other education."

Sharp variations by State are noted, depending upon the program involved and reflecting, no doubt, the particular emphasis of the State. One-fourth of the

Chart 3.--Percent of enrollment in adult basic and secondary education programs, by race/ethnicity of students and age: Aggregate United States, fiscal year 1975

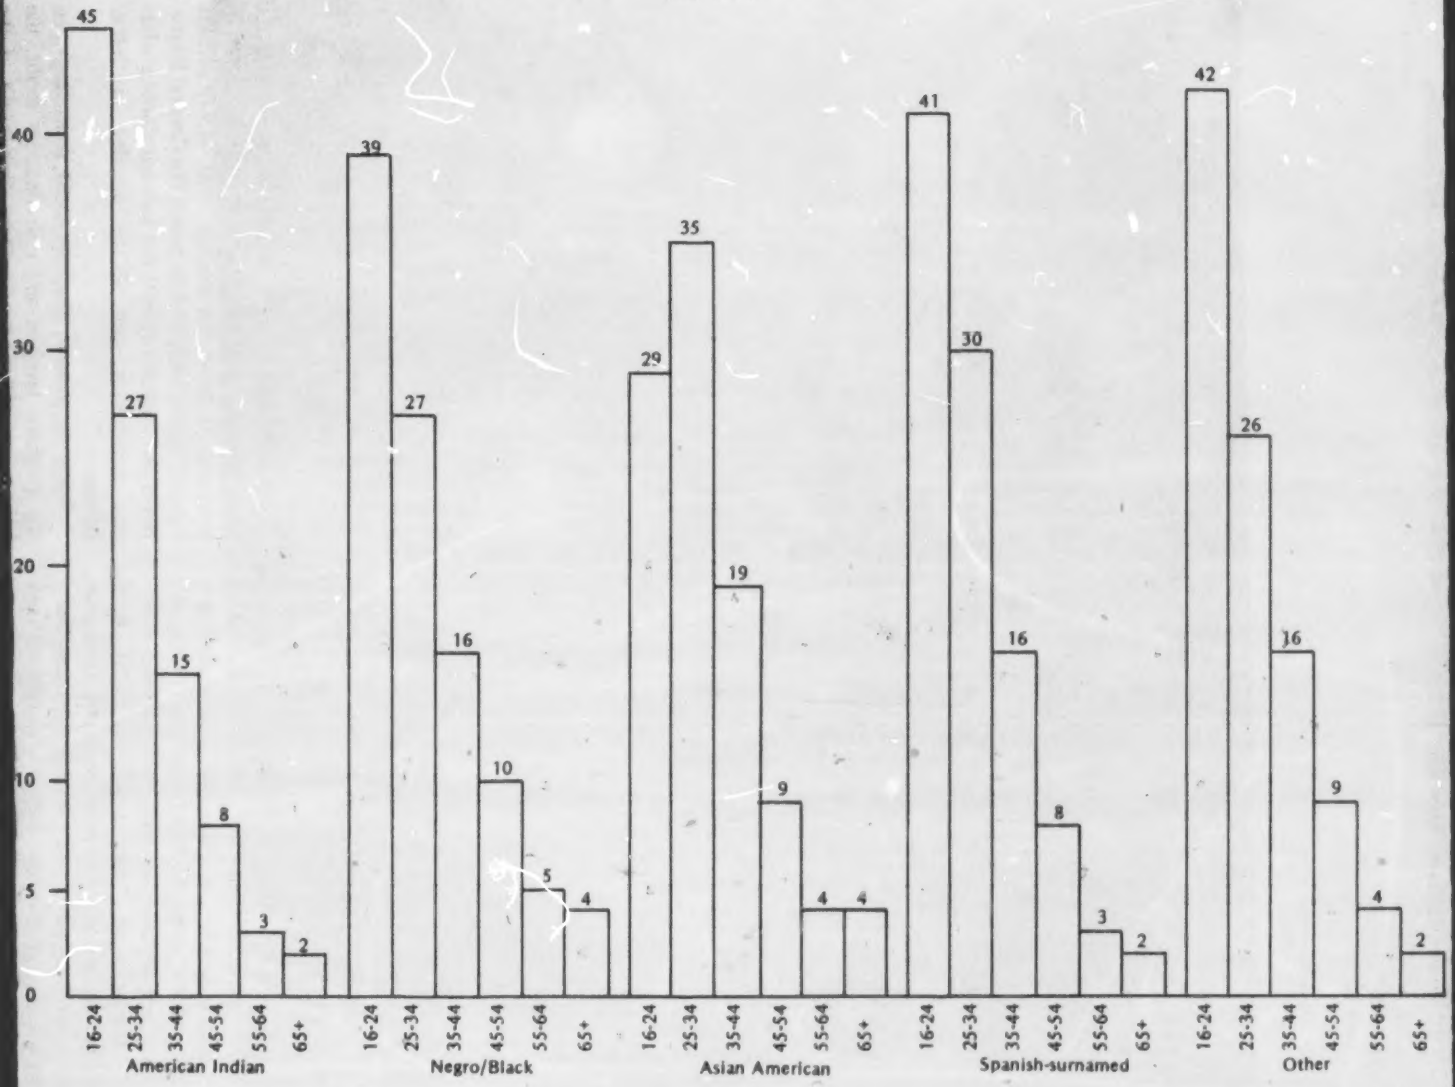


Chart 4.--Percent of participation in adult basic and secondary education programs, by race/ethnicity and age groups: Aggregate United States, fiscal year 1975

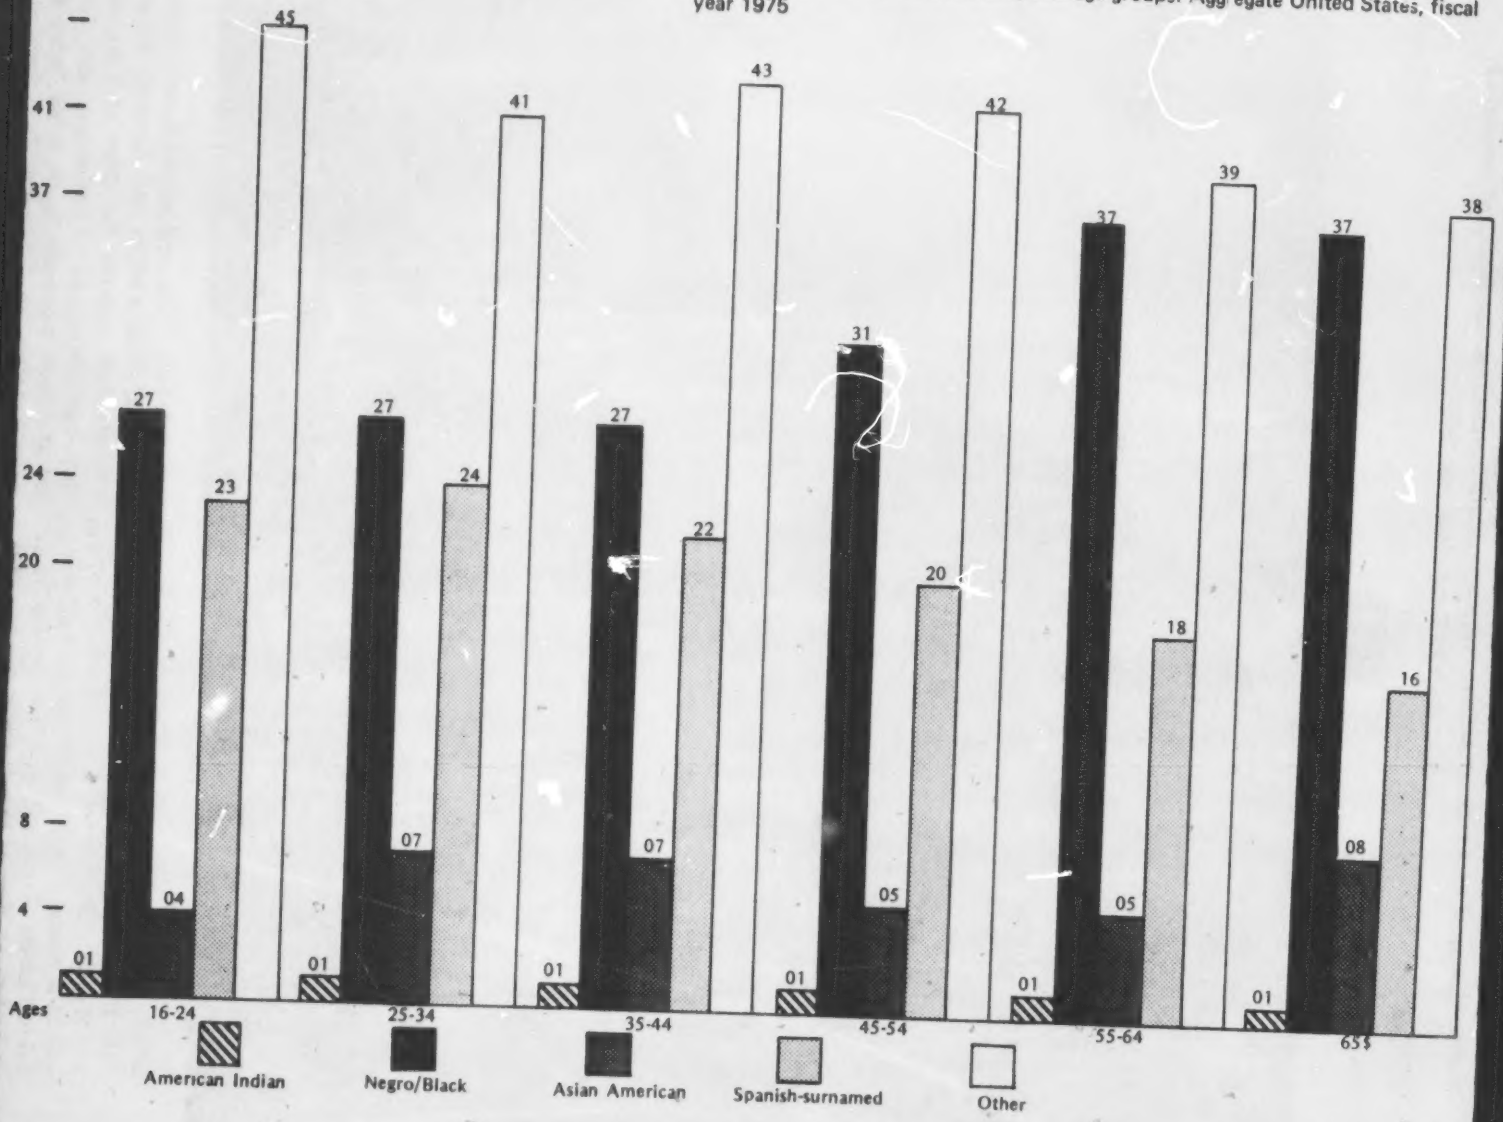

Chart 5.--Number of adult basic and secondary education program enrollments, separations, and completions: Aggregate United States, fiscal year 1975

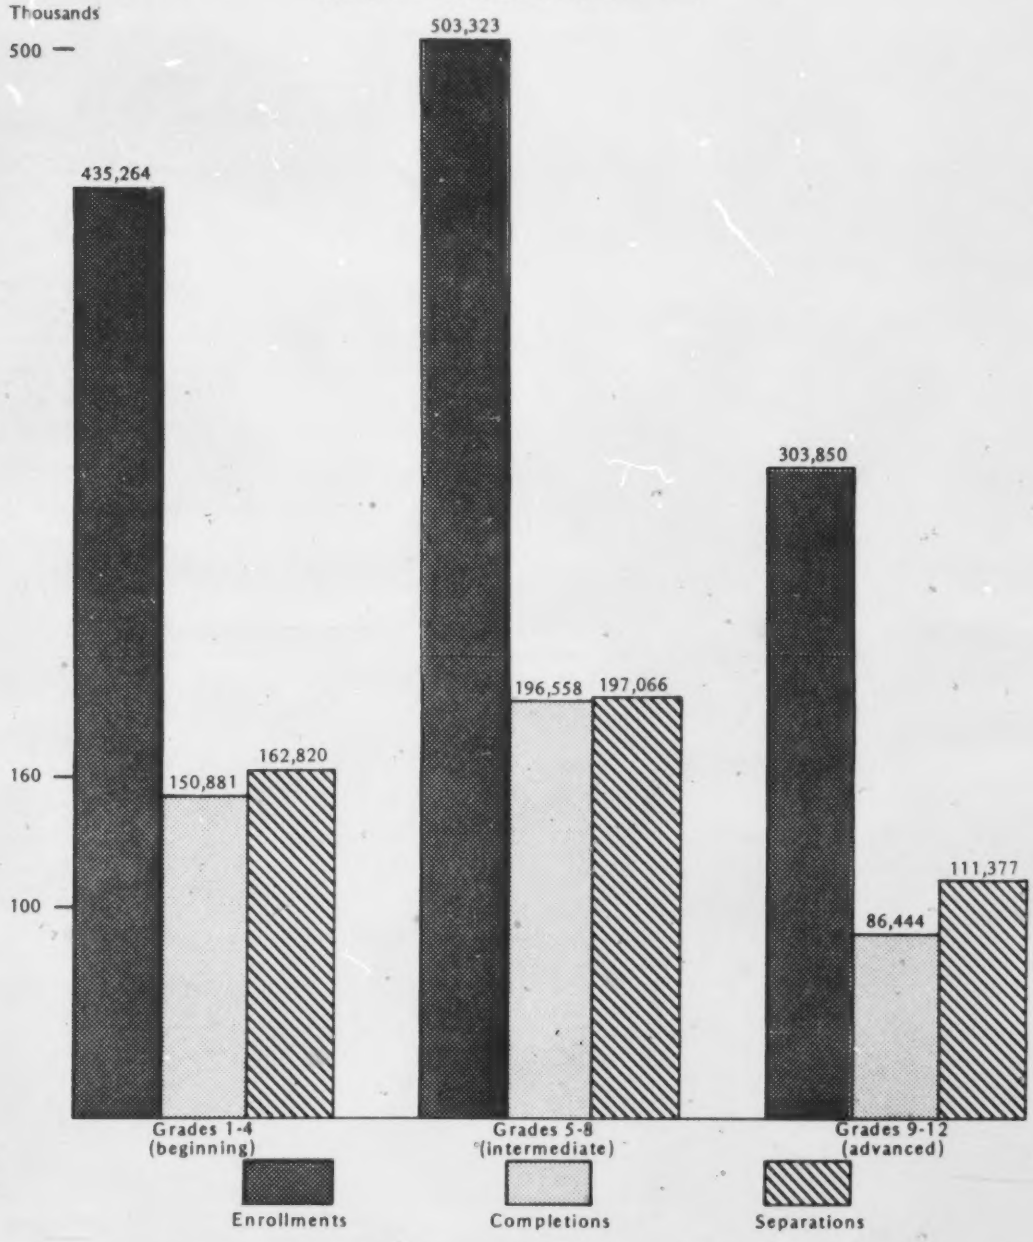


87,608 participants who received an 8th-grade diploma came from four States--Ohio, Texas, North Carolina, and Michigan. Nearly one-fourth of the 64,979 who entered high school came from Florida and California. North Carolina, Texas, and New York reported relatively high numbers of participants passing the GED test, while Utah, Hawaii, and Arizona showed relatively low totals. North Carolina and California reported relatively high numbers for those who graduated from high school and, in conjunction with Texas, indicated large enrollment figures in the "other education" category.

Personal Achievement

The States were asked to provide answers for a series of questions. These required preparation of reports on program participants' personal achievements, including registering to vote for the first time, obtaining U.S. citizenship or a driver's license, and completing training in how to complete income tax returns. Table 12 shows the numbers of persons reported to have attained these personal objectives.

Economic Status

A major goal of most educational programs is to assist participants' economic as well as personal development. Table 13 shows the job status of those who participated in adult basic and secondary education programs. Of those for whom this information was provided, 42 percent were employed, 37 percent unemployed, and 10 percent on public welfare roles. More important may be the 16,954 persons who left the public-welfare rolls after participating in the program. Also aided were 64,034 persons who obtained employment after participating, and the 38,138 who had been employed but who received better jobs.

Program and Staff Characteristics

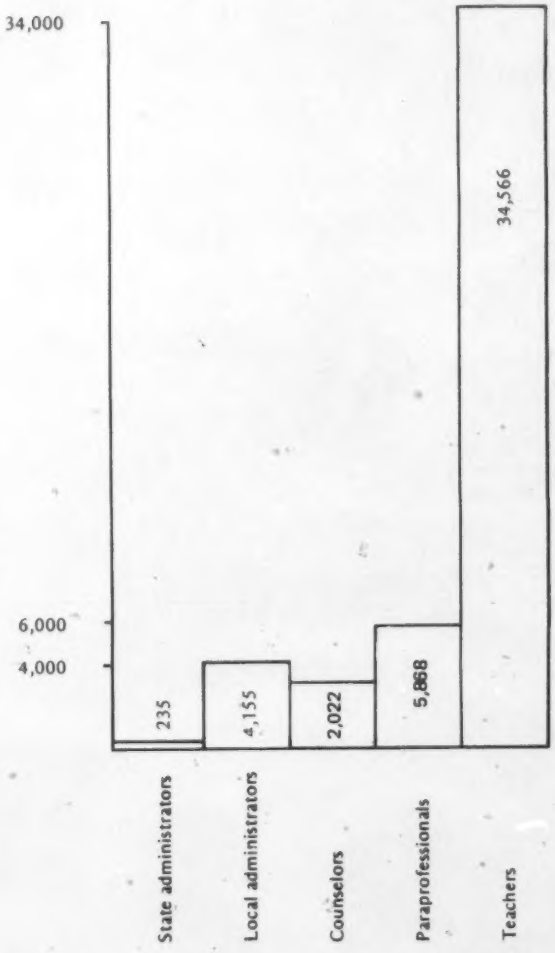
Most program enrollees for whom data were available were enrolled in urban areas. The totals shown in table 14 represent 75 percent in urban programs, 22 percent, rural programs; and 3 percent, waiting to enter programs.

Staff Characteristics

Table 15 shows the number of staff and the student-staff ratio. The 34,566 teachers were augmented by 5,868 paraprofessionals and 2,022 counselors. The national average student-teacher ratio was 35:1, ranging from 91:1 for Delaware to 8:1 for American Samoa and 19:1 for New Hampshire. Chart 6 shows the relative numbers of State administrators, local administrators, counselors, paraprofessionals, teachers, and students.

Most teachers in adult basic and secondary education programs were part time, as table 16 indicates. The full-time equivalent for the 34,566 teachers was 12,056. During the year, 33,377 teachers (both experienced and entering the field) received training in instructional methods in adult basic and secondary education. In some States, almost all of the teachers received some training (100 percent in Vermont as well as in American Samoa), while in others the percentage was much lower (22 percent in Hawaii). Most teachers (23,685) received less than 16 hours of training.

Chart 6.--Number of staff and students in adult basic and secondary education programs: Aggregate United States, fiscal year 1975



A series of tables present details on the number of persons working in the adult basic and secondary education program by total, full-time equivalent, number trained during the year, and the length of that training. Table 17 presents these data for State administrative and supervisory personnel, table 18 for paid local administrative and supervisory personnel, table 19 for paid local teachers, table 20 for

paid local counselors, and table 21 for paid local paraprofessionals.

Instructional Level

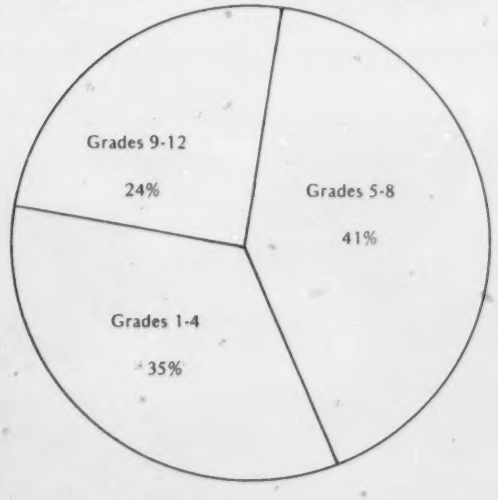
States were also asked to categorize adult basic and secondary education training by its comparable level in elementary and secondary schools. These categories were used:

Beginning level, grades 1 through 4
Intermediate level, grades 5 through 8
Advanced level, grades 9 through 12

Table 22 presents details on the numbers enrolled in each of these levels. Overall, 35 percent were at the beginning, 41 percent at the intermediate, and 24 percent at the advanced level, as shown in chart 7.

Table 23 is a three-part table, showing the details on enrollment by level. Percentage figures used are the percentage of total completions and separations at each level.

Chart 7.–Percent of enrollments in adult basic and secondary education programs, by grade level: Aggregate United States, fiscal year 1975



Classroom and Other Characteristics

The fact that a substantial number of adult basic and secondary education classes are conducted in other than traditional school settings is shown in tables 24, 25, and 26. Table 24 is a summary table and tables 25 and 26 present data for daytime and evening classes, respectively.

Three additional tables in this report are new to the series–tables 27, 28, and 29. Tables 27 and 28 show data for institutionalized persons and persons of limited English-speaking ability, whereas table 29 reports the number of section 309 projects funded by the State or other area agency.

As presented in table 27, enrollment figures for institutionalized persons in adult basic and secondary education programs were 49,198 and 15,196, respectively. There were 213,823 enrollees in programs for persons of limited English-speaking ability, with California programs composing 47 percent of the total. Separation data similarly classified is shown in table 28, with 18,328 and 3,988 institutionalized persons withdrawing from adult basic and secondary education programs, respectively. Again California led, with 57 percent of all separations. Table 29 presents data on 132 special projects and 95 teacher training plans throughout the various States and other areas.

Data for tables 27, 28, and 29 were taken from supplementary performance reports that the States and other areas submitted to the Office of Education. Typically, as 1975 was the first year these reports were required some States or other areas did not reply.

Readers of this series of reports are reminded that they will not find fiscal data for 1974 and 1975 in this report. The inconsistencies among the data that the various States and other areas provided were such that no statistically reliable series of tables could be developed. With the continued use of the new format for fiscal year 1976, more reliable reporting is anticipated for this area.

DETAIL TABLES

In these tables the following symbols are used:

0 = No data provided by State or the State indicated zero
(0) = Less than 0.5 or less than 0.01 percent, as appropriate
Percent details may not add to 100.0 because of rounding

Colorado, American Samoa, and Guam did not respond in fiscal year 1975
Their data in these tables are from fiscal year 1974

Table 1.--Selected statistics of adult basic and secondary education programs: Aggregate United States,[1] fiscal years 1971-75

APPENDIX:

ANNUAL REPORT FORM FOR ADULT BASIC AND SECONDARY EDUCATION PROGRAMS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

FORM APPROVED
O.M.B. NO. 51-R1058

INSTRUCTIONS FOR PREPARING THE ANNUAL PERFORMANCE REPORT FOR ADULT EDUCATION STATE GRANT PROGRAMS *(13.400)*

Table 1. Reports the population that is being served by adult education classes in the State with Federal, State and/or local funds under P.L. 91-230. It should include participants from other Federal programs such as Manpower and WIN for whom any direct services are being provided at clearly additional cost to the program *(e.g., when an influx of 40 WIN participants would necessitate operating 2 or 3 extra classes)*. Every participant that completed 12 or more hours of instruction during the fiscal year July 1 through June 30 should be included in this table.

A participant's age is to be reported as age at time of first class attended during the fiscal year.

The total number of adult education participants reported in Table 1, Line 7, of Total Column (l) should agree exactly with the total figure reported in Table 2, Part A, Line 4, Column (e).

Table 2. Combines important data on starting levels, completions, and separations. As with Table 1, only participants who attended 12 or more hours of instruction during the fiscal year should be reported. Because of student advancement across instructional levels during the period of this report, the total number of students enrolled *(i.e., the unduplicated count)* reported in column (e) may or may not equal the total number of enrollees reported by instructional levels in column (b), Line 4. The total figure reported in Table 2, Part A, Line 4, Column (e) should agree exactly with the total reported in Table 1, Line 7, of Total Column (l).

Completions. In Table 2, Part A, column (c), report the number of students who completed the beginning, intermediate, or advanced level of instruction during the fiscal year. Students who left the program during the fiscal year because they completed the intermediate or advanced levels should not be counted as separations, but as completions. Count separations one time only. For example, a female who separates because she has a baby-sitting problem may be said to have a family problem. However, it is more accurate and useful to report her separation once under "child care problems."

Separations. Report in Table 2, Part A, Column (d) the number of students who separated from the program before completion of the beginning, intermediate, or advanced levels of instruction for one or more of the reasons identified in Table 2, Part B. Reasons for separations have been delineated to show "positive" type reasons indicating certain program accomplishments, as well as problem-related reasons which may be amenable to State and/or Federal influence. For example, if health problems show up significantly in a given State as a reason for separations, the State administrator might encourage curriculum of personal health care, hygiene and nutrition. The total figure reported in Table 2, Part A, Line 4, Column (d) should agree exactly with the total reported in Part B, Item 13.

Until such time as special definitions have been developed for measuring adult performance levels, "Beginning" level *(to conform with census data)* is equivalent to Grades 1-4. "Intermediate" is equivalent to Grades 5-8. "Advanced" is equivalent to Grades 9-12.

Table 3. Shows where participants attended classes and the number of day and evening classes by type of classroom location. As with Table 1, and Column (b) of Table 2, the State should report on every participant that completed 12 or more hours of instruction during the fiscal year.

"School Building" can be either public or private. For purposes of this report, junior high buildings should be classified as elementary.

"Learning centers," for purposes of the adult education program and this report, and adult instructional settings featuring *(1)* extensive use of programmed instruction, *(2)* flexible participant scheduling and attendance, *(3)* being open for extended periods of time and on a daily basis, e.g. 9:00 a.m. to 5:00 p.m. In cases where learning centers are found in any of the other types of locations listed, participants should be counted as attending learning centers, not the other types.

"Correctional Institutions" can be Federal, State or local and include youth offenders 16 years of age or older as well as adults. Inmates are are the only ones to be included in this category.

"Hospitals" can be Federal, State or local; mental institutions are included. Hospital in-patients and out-patients are the only ones to be included in this category.

"Work sites" can be public or private, as long as they are operating places of employment for the participants. If hospital or correctional employees are trained at their respective job locations, they would be counted under the "work site" category.

"All other locations" would include those that do not fit into one of the above categories. Church and storefront locations and four year colleges are among those that would generally fall into this category.

Table 4. Requires data on numbers of personnel and their full-time equivalence for five different personnel categories. It also provides for indication of the amount of State and/or local pre-service or in-service adult education program-related training received by paid personnel during the fiscal year.

In column (b) count one time only each employee of the State Department of Education who is being paid out of Federal, State and/or local adult education funds. Each employee should be placed in the personnel category where he does most of his work. "Administrative and Supervisory personnel" includes teacher trainers and curriculum, counseling and guidance specialist.

In column (c) convert the personnel in column (b) to an equivalent number of full-time personnel according to the formula or method used by the State in determining full time employment in each of the different job categories.

"State or Local Training" is not to include any "309(b) and (c)" funded training. It should include other training that is clearly related to the program effort under the personnel categories listed above. A "clock hour" refers to a period of instruction of at least 50 minutes in length.

Table 5. Provides for various impact information concerning the State adult education program. Supply accurate data if it is available on a Statewide basis for any of the listed items.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

ADULT EDUCATION ANNUAL PERFORMANCE REPORT

PERIOD COVERED		FORM APPROVED O.M.B. NO. 51-R1052
FROM	TO	
STATE		DATE OF REPORT

INSTRUCTIONS

The principal purpose of the report is to allow States to make better use, for planning purposes, of information found in the five tables. The report has several other purposes at the Federal level. It serves the Office of Education by providing a standardized data-collection format for use by all States. The collected information is used to publish reports and respond to inquiries. More importantly, the report is used as a program tool for the Office of Education to assess the impact of adult education at the State, Regional and National levels. Such information provides a basis for changes in National policy, redirection of resources, and provision of various forms of assistance to States.

The first table is concerned with various characteristics of the population served, the second table with instructional levels and participant separations, the third table with number of participants by location of classes and number of day and evening classes by location. The fourth table is related to staffing patterns of paid State and local personnel and the amount of program-related training in which they are participating. The last table is concerned with impact of the adult education program.

The new alignments of data in the tables permit the State Administrator to look at the overall performance of the State program. For this report to be of maximum value to both State and Federal program officials it is better that figures which are considered unreliable not be included in the report. *(Where no reliable figures are available, the appropriate spaces in the reporting tables should be lined through.)*

To make the best possible use of this information system the State Administrator should insist upon timely and accurate reporting of data from local jurisdictions. For Federal purposes, a signed original and two copies of the report should reach the HEW Regional Office no later than October 1.

TABLE 1. NUMBER OF PARTICIPANTS BY RACE, SELECTED ETHNIC GROUPS, AGE AND SEX

AGE	AMERICAN INDIAN		NEGRO/ BLACK		ASIAN AMERICAN		SPANISH-SURNAMED		OTHER INDIVIDUALS NOT INCLUDED IN COLS. *(b) thru (i)*		TOTAL Cols. *(a)* thru *(k)*
(a)	Male *(b)*	Female *(c)*	Male *(d)*	Female *(e)*	Male *(f)*	Female *(g)*	Male *(h)*	Female *(i)*	Male *(j)*	Female *(k)*	(L)
1. 16 - 24											
2. 25 - 34											
3. 35 - 44											
4. 44 - 54											
5. 55 - 64											
6. 65 PLUS											
7. TOTAL											

TABLE 2. PARTICIPANT PROGRESS AND SEPARATION DATA BY INSTRUCTIONAL LEVEL

PART A. NUMBER OF PARTICIPANTS

INSTRUCTIONAL LEVEL *(a)*	GRADES	NUMBER ENROLLED AT EACH LEVEL *(b)*	NUMBER COMPLETED EACH LEVEL *(c)*	NUMBER SEPARATED FROM EACH LEVEL *(d)*	TOTAL NUMBER OF ENROLLEES *(Unduplicated Count)* *(e)*
1. Beginning	(1 - 4)				
2. Intermediate	(5 - 8)				
3. Advanced	(9 - 12)				
4. TOTAL					

PART B. REASONS FOR SEPARATION *(Give the number of separations)*

1. To take a job *(unemployed when entered program)*		8. Because of child care problems	
		9. Because of family problems	
2. To take a better job *(employed when entered program)*		10. Because of time class/program is scheduled	
3. To enter another training program		11. For other known reasons *(Specify)*	
4. Met personal objective			
5. For lack of interest		12. For unknown reasons	
6. Because of health problems		13. TOTAL	
7. Because of transportation problems			

OE FORM 365-1,5/75 PREVIOUS EDITION IS OBSOLETE.

TABLE 3. NUMBER OF PARTICIPANTS AND NUMBER OF DAYTIME AND EVENING CLASSES BY TYPE OF LOCATION

LOCATION OF CLASSES (a)	NUMBER OF PARTICIPANTS (b)	NUMBER OF DAYTIME CLASSES (c)	NUMBER OF EVENING CLASSES (d)
SCHOOL BUILDING: 1. a. Elementary/Junior			
b. Secondary			
c. Community College *(Junior College, Technical Institute, etc.)*			
2. Learning Center			
3. Correctional Institute			
4. Hospital			
5. Work Site			
6. Other Locations *(including 4-yr. coll.)*			
7. TOTAL			

TABLE 4. NUMBER OF PAID PERSONNEL, BY LOCATION AND TYPE OF EMPLOYMENT, AND BY AMOUNT OF TRAINING

(NOTE: Include in this table information for only those persons who are paid from funds granted under the Adult Education Act. Please specify the various formulas or methods used in each of the categories. Use a separate sheet of paper and attach.)

ORGANIZATIONAL PLACEMENT AND TYPE OF JOB PERFORMED (a)	PAID ADULT EDUCATION PERSONNEL					
	TOTAL NUMBER OF PERSONNEL (b)	EQUIVALENT NUMBER OF FULL-TIME PERSONNEL (c)	AMOUNT OF STATE AND/OR LOCAL TRAINING (in clock hours)			
			NO. TAKING 1-16 HOURS (d)	NO. TAKING 17-40 HOURS (e)	NO. TAKING 41 OR MORE HOURS (f)	NO. TAKING NO HOURS (g)
1. State Level Administrative & Supervisory Personnel						
2. Local Administrative and Supervisory Personnel						
3. Local Teachers						
4. Local Counselors						
5. Local Paraprofessionals						
6. TOTAL						

TABLE 5. STATE ADULT EDUCATION PROGRAM IMPACT DATA

PERSONS WHO –	NUMBER OF PERSONS	PERSONS WHO –	NUMBER OF PERSONS
1. Are enrolled in an urban ABE Program *(Community population over 100,000)*		11. Enrolled in other education/training program *(Employee development, community college, junior college, four-year college, business or technical institute, correspondence, other Federal, State or local manpower program as a result of experience in program)*	
2. Are enrolled in a rural ABE Program *(Community population under 2,500)*			
3. Are enrolled in program who are employed			
4. Are enrolled in program who are unemployed		12. Were removed from public assistance rolls	
5. Are enrolled in program who are receiving public assistance		13. Obtained jobs as a result of experience gained in program	
6. Are on waiting lists to enter program		14. Changed to or were upgraded to a better job as a result of experience in program	
7. Completed ABE Program through eighth grade		15. Registered to vote for the first time	
8. Enrolled in high school program *(Grades 9 through 12)* after completing ABE Program		16. Received U.S. citizenship	
9. Passed general education development test		17. Received driver's license	
10. Graduated from high school after starting in ABE Program		18. Received training in completing income tax forms
